

VIRTUAL TESTING AND TRIALS

VIRTUAL PROOF OF CONCEPT

HASSLE FREE

- Our team of Food Scientists and Engineers will help you to scope your testing needs and create a test plan that will provide solutions quickly.
- All information, data and samples collected are sent to you and your team with a custom report with findings and recommendations.

REAL-TIME DATA

- Our Innovation Center is outfitted with our AutoChef™ platforms and configured using the CookerCloud™ system making it easy to share the results with your team whether in real time or in summary.
- Observe not only a video of your trial but also have the CookerCloud™ data stream directly to your team to actually see the details behind the cooking or mixing process being validated.

VALIDATE NEW PROCESSES

- Work virtually side-by-side with our experts relying on our cloud based data streaming to confidentially validate a new proc.
- Data collected will provide the scale up calculations and support to formalize your investment budgets.

CHOOSE YOUR EXPERIENCE

- Virtually attend a general demonstration or work with our team to create a custom trial or complete your R&D project.
- The right experience is waiting for you at the Blentech Innovation Center. Options include:
 - Cook, Blanch, Boil
 - Bath And Continuous
 - Sauté, Stir Fry
 - Mix
 - Vacuum Cook And Cool
 - Marinate And Massage

The Blentech Innovation Center is outfitted with the latest in Blentech technology allowing you to prove your process before you buy so that you have confidence in your investment. We are uniquely prepared to provide this impressive experience to you remotely. Have the ability to not only connect with our team on live streaming video from beginning to end but also interact with our food scientist in real time as your recipe is created and run through our pilot scale equipment. Concurrently, view the batch reporting data being fed to your team via our CookerCloud™ technology. Watch it happening live streaming right to your computer. It's an experience like none other in our industry.

Now is the time to make business continuity decisions - let us help you do that in real time with a virtual trial at the Blentech Innovation Center.
